

Kisi Access Control

Kisi makes accessing spaces easier than ever

- Get set up by your organization administrator in a matter of seconds
- Multiple unlock methods: Kisi Mobile App, Tap To Unlock, Apple Watch, Android Wear, MotionSense etc.
- Integrates seamlessly with already existing softwares: Google, Cameras, CRMs, etc.
- Lightning fast unlocks - Unlock in as little as 0.3 seconds
- Allows remote unlocks (In case you forget your phone/key card at home)

Get Started With Kisi

STEP 1: Your Kisi admin will add you to your space and you will receive a Kisi invitation email. You'll be redirected to your app store to download the Kisi app

[Download for iOS](#)

Door Access Granted

Hi Tim,

You have been granted door access for the organization Kisi Demo Organization. Kisi Demo Organization uses Kisi, which allows you to unlock doors with your mobile phone or an access card (if available).

The Kisi app is required for phone unlocks:

[Download for iOS](#)

[Download for Android](#)

When you have the app installed, enter your email to receive a sign-in link. For manual sign in option, use "kisi-demo-org" as your organization domain.

If you have any questions regarding your access rights, please contact your administrator, Admin Tim ([REDACTED]@getkisi.com).

[Contact Kisi Support](#)

STEP 2: Once the app is on your phone, you'll enter in your email address to receive a Sign-in link

Enter your email

Enter your email address to request a sign-in link

Email

Continue

Manual sign in

Get Started With Kisi

STEP 3: Check your inbox for the Sign-in link from Kisi and tap on the link to be directed to the Kisi app to create your Kisi account

Kisi Sign In link

You requested a sign-in link.

From your mobile device with Kisi installed, select the account you want to sign in to. You can sign in to several accounts without requesting a new email.

[Kisi Demo Organization \(domain: kisi-demo-org\)](#)

You can also use the domain name to sign in manually, or request a new sign in link in the app later.

If you didn't request this email, you can ignore it.
